- Experienced with multiple iterations during design implementation.
- Wrote extensible and maintainable code as part of a team
- Excelled in rapidly prototyping new capabilities to confirm project feasibility.
- Designed web applications and maintained content for multiple.NET-based systems.

## Junior Software Developer

July 2002-February 2007

- Modified existing software to detect and correct errors, improve performance, and upgrade interfaces.
- Consulted with clients regularly regarding projects, proposals, and technical issues that arise during the development process.
- Prepared reports on specifications and activities for each project.
- Collaborated well with other team members to determine the best design specifications and details.

## Education

Master of Science in Software  
Development  
2002

Boston University City,State

Bachelor of Science in

Software Development

2000

University of Chicago

City,State

### Hobbies and Interests

When I am not sitting in front of a computer monitor,I like to disconnect and unwind in the great outdoors.My favorite activities include camping ,hiking,and kayaking at many of the national parks located nearest my home. I volunteer my time once a week to teach middle schools students how to code ,and often volunteer with Habitat for Humanity when I get the opportunity.
